I am a fresh graduate of Informatics from Telkom University with a strong passion in software development, particularly Android, Web, and UI/UX Design. Outside of my academic studies, I am proactive in developing my skills by joining relevant bootcamps, trainings, and internships, where I am directly involved in web and Android application development. I am also active in organizations and committees that hone my soft skills, such as team collaboration, problem solving, public speaking, and creative thinking. With these experiences, I hope to contribute to innovative projects, collaborate with talented teams, and grow professionally in a dynamic and challenging work environment.
